

In April, the board approved the chief's request to hire three more full-time firefighters, using savings they obtained by paying off the Station 2 loan early. Wescott has operated and maintained a 15 full-time firefighter staff supporting the larger district (before annexation by Colorado Springs). Last year they supported the reduced service area with the same staff level needed for the larger area. With 66 percent less area and residents to service, why do they need a 20 percent increase in firefighter staff?

Three of the current board members are seeking

election for another term, but it is time for a change. Please go vote at the polling place on May 8.

D38—just follow the rule of law

Wow—really! Now we know why D38 has secretly met over the past several months. At the April 19 board meeting, Director Chris Taylor, who was elected in November 2017, outlined several issues from those executive meetings. Among those are (1) an ongoing controversy about the D38 school lawyer's advice that an employee

lie about a meeting audiotape (2) Director Taylor's self-admission that he violated Colorado's Open Meeting Act. FYI: By revealing these exclusive executive session details, Director Taylor once again broke the law.

So how do we fix this royal D38 mess—training on Colorado law, a new school lawyer, a new leadership team, or all of the above? Surely we can all at least agree that our elected officials—each and every one of them—must follow the rule of law.
