### Dead trees near power lines

Many large dead trees have succumbed to pine beetles with characteristic orange needles that stand out like they are lit up. Many of those trees are near Mountain View Electric powerlines and fences and it would be hazardous for property owners to try to fell them safely. If one of your trees could take down power lines by falling on them, MVEA will bring their bucket truck and chipper and drop the tree for no charge. If you have such a tree, call MVEA at 719-495-2283 to get their assistance.
